Refereed Conference/Workshop Proceedings

(Note: Due to the unique and dynamic nature of Computer Science, it is an accepted practice to consider peer reviewed journal and peer reviewed conference publications to be equivalent. This policy is also consistent with the Best Practices Memo article that appeared in the Computing Research News (https://archive.cra.org/reports/tenure_review.pdf). The papers published in such peer-reviewed proceedings are full papers and not abstracts and are revised based on reviewers’ feedback before appearing in their final publication forms.)
